

Framery O

Framery O is ideal for important calls or video conferences. Have your discussions in privacy without disturbing your colleagues.

INTERIOR OPTIONS

- Standard or Video Conference Ready
- Available Options:
 - frame & exterior colours
 - seat colours
 - wireless charger
 - LAN
 - self-closing hinges
 - electromechanical code lock

FEATURES

- **Exterior:** painted sheet metal or brushed stainless steel
- **Glass:** sound control laminated glass
- **Frame & Table:** formica laminate on birch plywood with varnish trim
- **Solid walls, roof & floor:** a sandwich element of sheet metal, birch plywood, recycled acoustic foam & acoustic felt.

DIMENSIONS

- **Exterior:** 221 x 100 x 100 cm
- **Interior:** 200 x 80 x 95 cm
- **Door:** doorway 84 cm; clear opening width 78.5 cm
- **Table:** height 102.5 cm
regular: 13 x 70 x 28.5 cm
wide: 12 x 75 x 30 cm
- **Adjustable Stool:** TOVI; seat height - 68.5 - 81.5 cm
- **Weight:** 320 Kg
- **Air Flow:** 21.5 l/s / 77.4 m³/h

POWER

Framery's products can be plugged into a wall socket. The pods have their own power supplies that give 24V DC to the lights and 12V DC fans. Both are operated by a motion detector. Inside the pods, there are UK power outlets for charging mobile devices.

ACOUSTICS

There isn't currently an industry standard for measurement, hence Framery does not publish their test results. The only answer is to try it for yourself. ISO 23351 - 1 is a new standard that is in the final phase of ISO's approval process.

SUSTAINABILITY

All wood materials that go into Framery pods come from FSC or PEFC sources. The felt is made from 60-70% recycled plastics – a large percentage from recycled plastic bottles. The acoustic foam is made from 60% recycled polyester fibres. Both the fan and the light are triggered by a motion sensor to limit the amount of electric-

ity used. Indeed, 10 O booths typically use less energy than charging a mobile phone.

WELLBEING IMPACT

Open plan office design can help with team work & company culture. But, this environment is not always conducive to actually getting work done. On average, people lose as much as 86 minutes a day due to the lack of privacy. People need quiet places to go for focused work, confidential calls & more. Framery allows you to introduce privacy to the open plan office.

FIRE SAFETY: No flammable materials are used in Framery products. The fire safety of all surface materials, upholstery and acoustics materials of the products are tested and classified by either national or international standards. EN 13501-1 classification for the used materials is the following: acoustic wool is classified B-s1, dO, acoustic felt B-s2, dO and carpet Cfl-s1. All surface materials have also been tested against ASTM E84 / UL 723 and are classified at least as Class C. Outer frames with laminated surface are IMO certified (French Maritime Authority). Moulded foam used in Tovi stool seat meets CA TB 117:2013 requirements. Fabric meets the performance requirements of BS EN 1021-1 and 1021-2.
