

GoSleep

RECOVER FROM STRESS AT WORK

It is afternoon, you are tired, lacking energy and motivation, can feel a headache coming on. This is the perfect time for you to have a quick lie down to recharge your batteries.

Napping in the office has been widely encouraged for some time now and it is proven to help you recover from stress during the working day. Companies are now looking for the ultimate solution to improve comfort and productivity.

GoSleep offers three configurations of pods with various colours and branding options: **GoSleep Pod, GoSleep Igloo & GoSport Pod.**

Initially launched to provide short term rest in airports, the pods by GoSleep are now being utilised in hospitals, universities, offices and a various sports venues.
