**TOP 5**

Our pick of products new to market

**1 Comfortable Concrete by Milliken**  
 The enduring appeal of concrete is translated into three carpet tile designs: Laid Bare, and two colourful evolutions, Urban Drama (vibrant tones) and Urban Poetry (calm pastels). The tiles come in two formats: 50x50cm square and 50x100cm slab. [millikencarpet.com](http://millikencarpet.com)

**2 Elinor Table by Claudio Bellini for Pedrali**  
 Following last year's Elinor Chair, the table continues the theme of soft curving lines with refined details. Two moulded elements of rigid polyurethane foam are upholstered in leather, supporting a 6mm solid laminate or Fenix tabletop (and a concealed steel structure). [pedrali.it/en](http://pedrali.it/en)

**3 N.A.P. by LoOok Industries for Office Blueprint**  
 N.A.P. stands for Neuron Activation Pod, and the acronym only tells half the story: in the pod, neurosonic tech targets the body with low-frequency vibrations to ease stress during a working day, stimulate the metabolism and improve sleep quality. [officeblueprint.co.uk](http://officeblueprint.co.uk)

**4 Silver 95/96 Lumiere by Paola Navone for Gervasoni**  
 Hammered nickel-plated brass is a new finish for this suspension lamp, which comes in two shapes: 95 has a shallow subtle curve while 96 has a more dramatic silhouette, with a deeper curve coming down either side of the bulb. [gervasoni1882.it/en](http://gervasoni1882.it/en)

**5 Orbit Series by Lukas Peet for ANDlight**  
 A glowing sphere represents the sun while the wire cage enclosing it is symbolic of the Earth's orbit around it. Available as a pendant or a table lamp on a marble base, Orbit's ambient glow is ideal for hotel lobbies and lounges. [andlight.ca](http://andlight.ca)
