- **Stool:** black or white Cloudy Gray felt caps seat height - 65-80 cm

### Flip n' Fold

- **Platform:** 99 x 60 cm
- **Door:** opening width 91.5 cm

## CERTIFICATES

## POWER

Framery's products can be plugged into a wall socket. The pods have their own power supplies that give 24V DC to the lights and 12V DC fans. Both are operated by a motion detector. Inside the pods, there are UK power outlets for charging mobile devices.

## SUSTAINABILITY

All wood materials that go into Framery pods come from FSC or PEFC sources. The felt is made from 60-70% recycled plastics – a large percentage from recycled plastic bottles. Framery Q consumes just under 12 W and after leaving the pod, consumption drops 75% to around 2,16 W.

## ACOUSTICS

There isn't currently an industry standard for measurement, hence Framery does not publish their test results. The only answer is to try it for yourself.

ISO 23351 - 1 is a new standard that is in the final phase of ISO's approval process.

## WELLBEING IMPACT

Open plan office design can help with team work. But, this environment is not always conducive to actually getting work done. On average, people lose as much as 86 minutes a day due to the lack of privacy. People need quiet places to go for focused work, confidential calls & more. Introduce privacy in the open plan office.
